2022 Generic Incentive Program List

Your cost-share may be waived for the first 4 generic prescriptions fills or refills if you purchase a brand-name drug on the Generic Incentive Program List and then change to a corresponding generic drug while still a member of the Plan.

Discuss with your healthcare provider to see if there's an alternative generic drug that can appropriately treat your condition.

If you take one of these brand-name drugs...	And change to one of these generic drug replacements...
